Spears® LabWaste® Installer Protection Plan

LWIPP-7-1217

In order to provide continued protection to trained installing contractors following installation, testing and sign off of a Spears® LabWaste® Corrosive Waste Drainage system; Spears® has instituted this plan to go above and beyond standard product warranties and will indemnify and defend the installing contractor against verified claims. If the Spears® LabWaste® Corrosive Waste Drainage system experiences a failure due to conditions outside the control of the installing contractor; The Installing Contractor will be covered 100% by the Spears® Installer Protection Plan.

Responsibility of the Installing Contractor

- Follow Spears® installation instructions (LW-4).
- All components must be 100% Spears® LabWaste® products. This includes pipe, fittings and cement. **NO EXCEPTIONS.**
- Installation must be by trained individuals with current certification. Spears® will accept certification by other certification entities up to the renewal date. At that time, subsequent training and certification must be done by Spears® authorized personnel.
- The installing contractor must contact Spears® immediately after they become aware of any issue. Contact information is located at the end of Exhibit A.
- The installing contractor will be responsible for initial labor charges on any repairs.
- The contractor shall promptly report in writing all claims within seven (7) days of any knowledge and fully cooperate with Spears® in the defense and resolution of all such claims, including providing any alleged parts.
- Exhibit A must be filled out in its entirety and submitted to Spears® for approval.

Responsibility of Spears® Under the Plan

- Spears® will cover the cost of any property damage as a result of an adverse condition that is outside the control of the Installing Contractor as outlined above.
- Spears® will reimburse the contractor for labor at a rate agreed upon by both parties.
- Any replacement products will be supplied by Spears®.
- Spears® will provide or approve of an attorney, if required.

Proper system design and operation must be in place. This includes, but is not limited to, the system being designed to retain proper pitch, follow proper procedures for thorough flushing of any drainage system after use.

POE oils should never be allowed to drain into a CPVC system.

For the full list of compatible ancillary products, please visit www.spearsmfg.com

General Terms and Notations of the Plan

Items Not Covered Under the Plan

- Product that has been allowed to freeze by the property owner or contractor.
- Vandalism, acts of God, i.e., tornados, earthquakes, and landslides, etc.
- Improper storage.
- Installation of system not in accordance with established professional standards.
- Systems with the use of cutting oils not properly flushed/cleaned.

Training

Spears® offers training classes in proper solvent cement, handling and installation techniques for installing contractors of Spears® LabWaste® Corrosive Waste Drainage systems. These sessions are complimentary and available with advanced notification and must be scheduled. Contact your local Spears® Representative for details and to schedule a session.

Please complete Exhibit A and submit to Spears® Manufacturing Company within 30 calendar days following AHJ sign-off. Failure to do so will result in rejection of your submission.
